## GUARANTEE

Because this is a dispersion the cattle will be sold without guarantees. This is the custom in dispersions. However, the prolificacy of the herd is obvious from the catalog and from the large number of calves at foot.

Gosshall Lucky Dip. This imported sire is just one of the many good bulls that has been used down through the years in the Wm. E. McCoy Maplevale Herd. Three daughters and a granddaughter sell.

## A Fine Buying Opportunity . . .

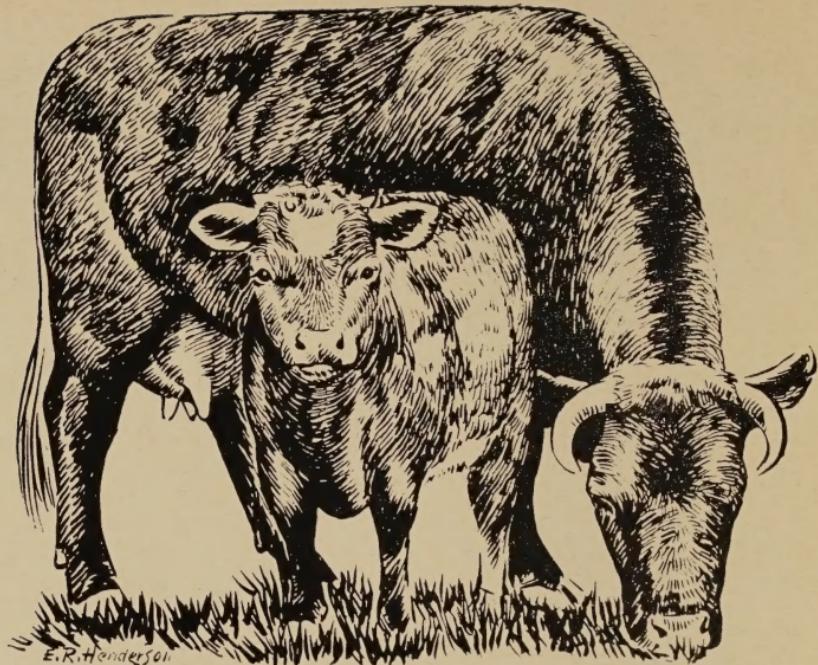

For those looking for the best in consistent producing cows, there is no better place to buy than in dispersions. This is especially true when one disperses cattle of sound cattlemen like Bill McCoy.

The Maplevale herd has a fine record, having produced the twice International championship winner, MV Lucky Bonspiel. The cow family that produced this 1953 International junior champion and 1954 senior and reserve grand champion is prominent in this sale. Besides this, Maplevale has bred and sold many champions and top sellers in western Illinois sales.

Bill McCoy has operated in several partnerships. Each time these partnerships were dissolved, he bought back the females he knew to be the best producers. Consequently the productiveness of this herd has been maintained at a way-above-average level.

The quality of this herd will be apparent to you when you see them. Although some of these cows carry quite a bit of age, they are the kind worth owning. One calf can more than repay the cost of its dam. This is your opportunity to buy well-bred, hard working cattle that would not otherwise be offered for sale.

BILL STUNKEL

## A Good Time To Buy . . .

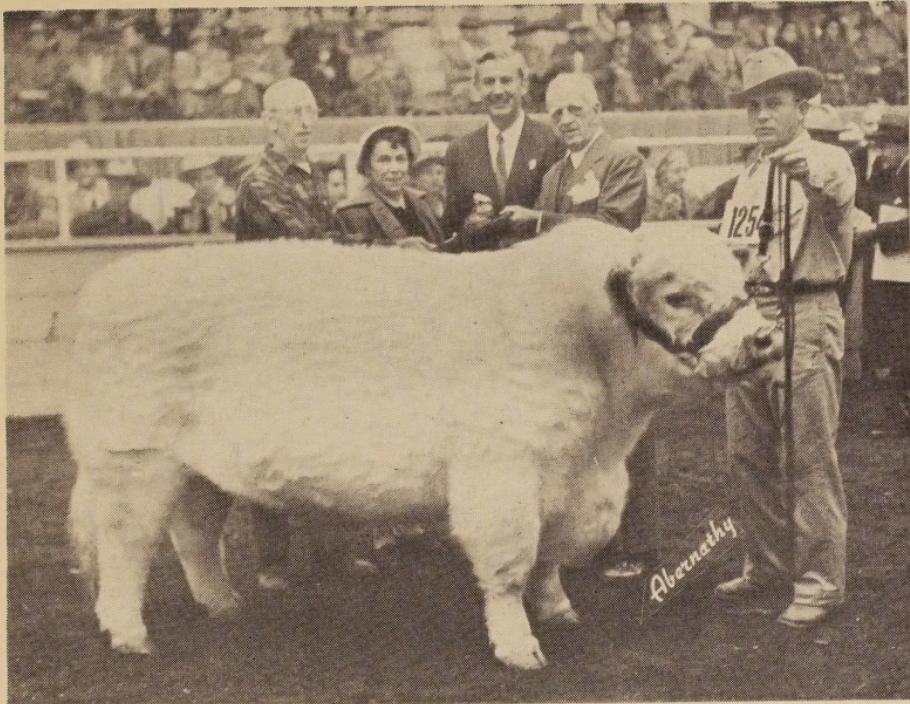

The Fall season is always a good time to buy cows. Of course every season is a good time to buy Shorthorn cows . . . especially the kind being offered in this dispersion.

If you have some stock fields to clean up, you can use these cows to advantage and at the same time establish or strengthen a registered cattle herd.

The Shorthorn industry is on the move. Never before have so many Shorthorn steers won in major interbreed competition as during the past two years . . . never before have so many farmers and ranchers turned to Shorthorns to increase the gaining ability and profit-making potential of their herds.

With more and more of the feeder calves from western range areas going into the new and extensive commercial feedlots of the West, local cattle feeders must look to herds in their own immediate areas for their feeder and stocker supplies.

This means a great opportunity for the midwestern commercial cow-and-calf man and for the registered breeder. The market for good registered and commercial Shorthorns is on the upswing . . . especially for those herds who can provide a quality product. Now is the time to set your herd right with a few quality purchases in this sale.

MV Lucky Bonspiel, 1953 International reserve junior champion and 1954 International senior and reserve grand champion. This bull was bred by Wm. E. McCoy and was produced by a member of their good Mayflower family.
